

Inspection Summary Report

Wyndham House Dental Practice, Cardiff and
Vale University Health Board

Inspection date: 22 February 2023

Publication date: 30 June 2023

This summary document provides an overview of the outcome of the inspection

Overall, we found Wyndham House Dental Practice was committed to providing a positive experience for their patients. All the patients who completed a HIW questionnaire rated the service provided by the dental practice as very good.

We observed staff greeting patients in a polite and friendly manner both in person and on the telephone.

We found there were systems and processes in place to ensure patients were being treated with dignity and professionalism.

However, we found a number of improvements were necessary regarding the storage of medication and pre employment checks of some staff member at the practice.

We issued the setting with a non compliance notice to ensure prompt improvement.

Note the inspection findings relation to the point in tie that the inspection was undertaken.

What we did

Full details on how we inspect the NHS and regulate independent healthcare providers in Wales can be found on our [website](#).

Healthcare Inspectorate Wales (HIW) completed an announced inspection of Wyndham House Dental Practice, Cardiff and Vale University Health Board on 22 February 2023.

Our team for the inspection comprised of a HIW Healthcare Inspector and a Dental Peer Reviewer.

This summary version of the report is designed for members of the public.

A full report, which is designed for the setting, and describes all findings relating to the provision of high quality, safe and reliable care that is centred on individual patients can be found on our [website](#).

Quality of Patient Experience

Overall Summary

We found Wyndham House Dental Practice was committed to providing a positive experience for their patients. All the patients who completed a HIW questionnaire rated the service provided by the dental practice as very good or good.

We observed staff greeting patients in a polite and friendly manner both in person and on the telephone.

We found there were systems and processes in place to ensure patients were being treated with dignity and in a professional manner.

What we found this service did well

- Patient experience was positive at this setting, based on feedback responses and comments,
- Comprehensive treatment planning for all patients.

Patients told us:

Everyone is professional within the practice.”

“Excellent dental care given.”

Delivery of Safe and Effective Care

Overall Summary

Overall, the practice was well maintained and all patient facing areas were clean and free from any visible hazards. The surgeries, decontamination room and reception area were of a good standard.

However, we could not be assured that medication was stored securely at the practice.

What we found this service did well

- The equipment at the practice was in a good condition and was being maintained in line with manufacturer's guidelines,
- Dental surgeries were well equipped and fit for purpose.

Where the service could improve

- Controlled drugs were not secured in a locked safe that was anchored securely.
- External clinical waste bins need to be secured in place.

Quality of Management and Leadership

Overall Summary

We observed a staff group that worked well together and were committed to providing a high standard of care for their patients. Staff had access to appropriate training opportunities to fulfil their professional obligations. We saw training was up-to-date and certificates were being kept to evidence this.

We could not be assured that the practice was carrying out correct pre-employment checks. We found that 5 members of staff members did not have an enhanced DBS check in place.

What we found this service did well

- Governance documentation was recently updated,
- The team worked well together and supported each other to ensure that high standards of care were given to their patients.

Where the service could improve

- Relevant pre-employment checks had not been carried out.

Next steps

Where we have identified improvements and immediate concerns during our inspection which require the service to take action, these are detailed in the appendices of the full inspection report.

When we identify concerns that pose an immediate risk to patient safety we ask the health board to undertake urgent action. These concerns are outlined in the appendices and outline the action taken by the health board to protect patient safety and approved by us. We also provide a detailed table of improvements identified during the inspection where we require the service to tell us about the actions they are taking to address these areas and improve the quality and safety of healthcare services. In addition we outline concerns raised and acknowledge those resolved during the inspection.

At the appropriate time HIW asks the health board to confirm action has been taken in line with management responses documented in the improvement plan. We also ask health boards to provide documented evidence of action taken and/or progress made.
